Vajeta, Malta, Nov. 3.—(AP)—General Sir David Campbell, Governor of Malta, dismissed the National Ministry headed by the Hon. Arthur D'Amico, on the basis of an acute political crisis.

After a time from differences between the Maltese and British authorities, the immediate difficulty is the question of language teaching in the schools.

The Maltese have a large majority in the last legislative election, demanding the restoration of the teaching of Italian in elementary schools. The Maltese, of course, speak Italian and English now are not on a political basis.

Fears in some quarters that disturbances would break out similar to those which occurred during the religious controversy of 1929 have been reflected in rumors during the last few days that the British Government would be asked to intervene to maintain the peace.

The British Government, however, has been searching out means for settling the dispute.

The Government of Malta is a British possession, regarded as a political matter.

A controversy arose in 1928 between the Maltese and the British, when Lord Bickerton, Governor of Malta, prevented the educational authorities from introducing a Provisional act, a native of Malta and a British subject, to teach Italian in the schools.

By 1930, the population of Malta was 200,000. The British Government, however, has been searching out means for settling the dispute.

An annual first class for 23 of that year has been missed. For the first time in 23 years, the Great Britain and the Vatican decided to observe the feast of St. Andrew.

The religious difficulties abated in the past.

Canadian Radio Celebration Begins Saturday for One Week

Remarkable Development in Radio in Past 3 Years

SIMPLICITY AIM

Canada's Radio Celebration, which will start November fourth and last until November the eleventh, will serve to bring before the Canadian people the immense possibilities that radio broadcasting has made in its advancement and development.

Also, by means of radio alone, instead of committees, it will be possible to select the radio listener, the famous artist that have been made to the pleasure of radio engineering.

Starting as a scientific society, the listening of which by its ability to transmit sound by wireless, the radio set has developed into a precise instrument of so delicate a nature that the most elaborate of performance-symphony or opera are carried into the home as fully as if they were being enjoyed in concert hall or stage.

The last three years have witnessed remarkable development in the designing of radio sets. The radio set of today with its long life, its performance, intelligent organization in its construction, its simplicity and its very great increase in both popularity and sensitivity.

Until very recently a person could not listen without the disagreeable hum, buzz, or hiss which has been largely overcome by the invention of the radio volume control which keeps the signal strength from alternately waxing and waning.

Perfect in many respects, the reception of distant stations and the ease with which it can be changed for this is that at night the "sky wave" are able to travel to a surface in the upper atmosphere called the "ionosphere" layer from which they are reflected to the earth.

The ground wave and the sky wave may both reach the receiving antenna, and may arrive in various and changing phase relation to each other because of the different distances that they travel. When the waves arrive "in phase," that is, with the crests of the other, the result will be reinforced. When they arrive "in phase opposition," that is, with the crest of one coinciding with the trough of the other, the signal will be weakened and will even become zero when the waves are equal in amplitude. Both of these conditions the automatic volume control does much to overcome.

One of the many impulses of the radio engineer is to make and use the most elaborate of performance-symphony or opera are carried into the home as fully as if they were being enjoyed in concert hall or stage.

the setting of the plain is accurate in one-thirtieth of an inch. Practically the tendency of the radio set is to become simpler. Improvements of tone has resulted in the elimination of hums and buzz, much to the pleasure of those who are making the art more complete, much to the pleasure of those who are making the art more complete, much to the pleasure of those who are making the art more complete.

# Gas is the oil burner you can afford

**CHALLENGER'S FIVE POINTS OF SUPERIORITY**

- 1st. The most efficient...an exclusive patented process of preheating the hot gases with air in a carburetor results in perfect combustion...no wasted fuel.
- 2nd. Silent...the most silent power burner ever produced...no mechanical noises, no vibration, no flame-vow.
- 3rd. Odorless and smokeless...puffs back of smoke and gases through the furnace door that cause odors are done away by the gradual developing flame of the Challenger.
- 4th. Simplified...no delicate nozzles, complicated delays and intricate controls to get out of order.
- 5th. Easily installed...requires no special built-in combustion chamber and no insulation when installed in warm air furnaces.

## Armistice Too

Much Forgotten  
"All too much are we forgetting Armistice Day," stated Dr. J. J. James, pastor of the Bridge Street United Church on Sunday. "The occasion is the anniversary of the occasion on Sunday last when the armistice was signed. It is a day when we should be remembering the sacrifice of the men who gave us this day of peace."

## Stirling Upsets Punctuate Grid Battles of Weekend

Ottawa, Queens and Sarina Go Down to Defeat

(By Frank Delaney, Canadian Press Staff Writer)  
Toronto, Nov. 6 (CP)—A sweeping reversal of form along the football front, that sent the Ottawa Rough Riders to defeat, today's action in the Ontario Grid League was punctuated by Stirling's upset victory over the Ottawa Rough Riders, the only wide-open game of the weekend. Officially, the game was a tie, but the Rough Riders' 14-0 rout was a real upset for a team that had been a light in the grid for some time. The Rough Riders, who had been a light in the grid for some time, were defeated by Stirling, who had been a light in the grid for some time.

Great Interest Manifested  
in Chevrolet Contest

As the first week of the Car Contest gets under way and the wheel is revolving in the window of the Walker Hardware Co., many hundreds can be seen daily at the window with their eyes fixed upon the mileage the wheel will run this week.

The wheel operates each day from 9 A.M. to 5.30 P.M. from Monday to Friday. On Saturdays it operates from 9.00 A.M. to 10.00 P.M. - It does not operate on Sunday.

In case you have not already clipped the information on how to figure the number of miles, here it is:

The wheel this week is revolving at a moderate rate. If you try to count the number of revolutions per minute.

Therefore figure the revolutions of the wheel per minute multiplied by the distance in the mile, namely 91 inches, to get distance the wheel travels per minute.

Figure the minutes the tire travels per week then divide by number of inches in a mile. This will give you the answer you desire.

Place your answers on contest coupons which are given with every 50 cent purchase by the Chevrolet Car Contest Merchants and deposit your coupon with any contest merchant at each one has a box provided for that purpose.

Figure your mileage for each individual week separately. The speed of the wheel will be changed each week before 9 A.M. on Mondays.

Use the mileage for each week to get the extra in order to decide the winner of the car.

## MAY RESTORE SCHOOL GRANT

Providing Revenues Be-  
come More Buoyant  
Says Premier

Ottawa, Nov. 8.—(CP)—Ontario's educational grant, reduced from \$10 to \$5 per cent in the economy plan of the provincial government, may be restored to its former level, says Premier George H. Henry.

The Premier said that the grant would be restored to its former level when the provincial government's revenues become more buoyant. He said that the grant would be restored to its former level when the provincial government's revenues become more buoyant.

## WORLD DARE NOT FORGET

Today, November 11th, is a day of retrospect and prospect. The Great War was fought for a principle and while it was being waged, the mind was looking forward to the results of that war. And the complete realization of those hopes came during the international struggle, which will further bring to the surface of the world all the while these hopes were forming a terrible picture in mind and body and in human life being enacted of the day. It is to this that the mind reverts on the fifteenth anniversary of the day when the armistice was signed.

It is very significant that there is more attention given to the observance of the occasion this year than for some years past. This is not a purely local condition but is apparent to everyone who has been reading the press of the Province and Dominion in the advance attention paid to the day.

It is as if many have at last realized that the way forward to the future was through the way back with reflection. Sacrifice had to be made for peace and prosperity and the world with reflection. Sacrifice had to be made for peace and prosperity and the world with reflection. Sacrifice had to be made for peace and prosperity and the world with reflection.

## SIDELIGHTS OF EQUALITY

It is not any urge of industry that will not let this creature wander free, but it is the urge of the selfishness of honey-bees. And not through laziness the butterfly Lifts rainbow-dyed wings against the sky And idly drifts till summer breeze die.

It is not grief that makes cuds sing Most plaintively when miles apart of autumn bring. The end of birds' song and of blossoming. No human motive fancy might impute. Can we move the insect or the brute; Or might it seem of which their acts are fruit.

Each idler, like each teller, plays his part In nature's scheme, nor can therefore die part. And each has equal worth in the cosmic heart.

Jericho HAS FALLEN. The Ram's Horn brigade has marched about the walls and sounded the doom of the city of privileged politicians. Jericho in this case is Tammany, the great city organization which has for so long dictated the policies and spent the money of the taxpayers, has now been defeated by the voters for a new deal and the election has voted for a new deal and the election has voted for a new deal.

Tammany machine was built up to its greatest peak of efficiency during the reign of Tweed, who waxed rich and arrogant on the spoils of a great city. Boss Tweed ended up in jail after Tammany to escape which took him to South America where he was arrested and brought back. Boss Dick Croker was the Tammy type, and Croker was the Tammy type, and Croker was the Tammy type.

## SECOND YEAR OF FEEDING OF CHILDREN

Five Feedings Per Day During Second Year

By Louis K. Smith, M.D., P.D., Director, Children's Hospital, New York City. (Continued from page 1.)

It is a well-known fact that the feeding of children during the second year is a most important matter. The child's health and growth depend largely on the quality and quantity of the food he receives. It is essential that the child be fed at regular intervals and that the food be well-digested and easily absorbed.

The child's diet should consist of a variety of foods, including cereals, fruits, vegetables, and meats. It is important to avoid overfeeding and to ensure that the child is not too full. The child should be encouraged to eat slowly and to chew his food thoroughly.

The child's diet should be adjusted to his individual needs. Some children may require more food than others, and some may have special dietary requirements. It is important to consult with a physician if there are any concerns about the child's diet.

# EDDIE SHORE NOW IN FOLD

## Agrees to Terms and Speeding From West To Join Team

New York Rangers, world champions, flash into the Ottawa Senators' locker room today to announce that Eddie Shore, Montreal Maroons and Ottawa Senators defenseman, has agreed to join the team when they start their season officially opened Thursday.

The Rangers' players start the new season right after they left the last season, meeting Maple Leaf's Toronto, where they defeated the champions of the Stanley Cup final in April.

Maroons and Senators both play in the Metropolitan taking on Montreal Maroons and Ottawa Senators in the Eastern Division.

Shore, among the same team that won the cup, Patrick should give an indication of his strength this season in the club with Leafs. He had scored 12 goals, repeated to push point of defensive ability with his role and Lester Chase, a former Red Wings player, to his staff, while being all the same of the Senators' aggression.

Shore without Dick Irvin, in will hold shooting, Coach Bruce will be in charge as manager and coach. "He will use the same line that had beaten 6-1 in the playoffs, lacking Harry Jackson who is still missing a training injury."

Maroons probably will be the last team with an opportunity to meet the Bruins without having to contend with Eddie Shore. The Red Wings defense came to an agreement with Montreal's Art Ross yesterday and is expected to be in the game on Saturday.

NOVEMBER IS MARCHING right along with vivid splashes of winter marking its progress, creating the impression that those animal weather prophets may be a bit out in predicting a warm, open winter.

Perhaps the squirrels will be well advised to lay in a stock of nuts and not take chances on signs of an open winter.

Muskrats, groundhogs, rabbits and other furry denizens of the great outdoors, should so about their winter coats at once, if as has been

However, it has been changed to 292 Front Street opposite Victoria Avenue. Is the address at which you will find Mr. A. E. Wonnocott, jeweller, engraver and watch repairer. If you are one of Mr. Wonnocott's many customers you do not require to be directed to his place of business, but if you are not one of his patrons it will be necessary to your advantage to inquire in his mind his address when you require something in his line. Mr. Wonnocott carries a complete stock of diamonds, rings, watches, clocks, and jewelry of all kinds. He does not care to commence your acquaintance by buying and a visit to his store is recommended. As a watch repairer Mr. Wonnocott has a splendid reputation and the engraving done by him is of a high order. Recently Mr. Wonnocott received valuable testimonials from persons in Winnipeg, Windsor and Toronto also a large number of letters from Toronto can be put in proper running order."

# Ontario School for the Deaf

Just twenty-five years ago Miss Catherine Pratt became a member of the staff of the Ontario School for the Deaf, and at the meeting of the Association of Teachers and Administrators on Wednesday afternoon she was presented with a certificate by the staff in recognition of her long, able and most efficient service. In making the presentation, the Association President said that she had recently been reading in the files of the Canadian deaf development of the educational work of the school and to the present high standard of instruction, elevating the deaf and promoting the self-reliance and enthusiasm of the staff, and the more the Ontario and Impairment. There was no teacher who was more thoroughly capable, or who had the best methods and devices for teaching the deaf and deaf-blind, and who was very grateful for the wonderful training she had received. The work done by the staff was not only a result of what they do, but also of what they have done in the past. Miss Pratt was then completely blind, but she made it possible for the school to be a very successful one. She was then presented with a very beautiful gift, but appreciated it very much.

## "Oilmen" Enjoy Three Point Lead in the Kingston Loop

Defeat Sunbury 5-1 in Loosely Played and Rough Game

Continuing their triumph on Saturday, the Kingston Oilmen enjoyed a three point lead in the Kingston Loop when they defeated the Sunbury team by a 5-1 score in a rough game.

The game, which developed into a rather rough encounter long before the final way was made, was marked with heavy hitting throughout both sides. The Oilmen took the lead in the initial minutes of the game when they scored a margin of four points in the second period. The Sunbury team, however, did not score until the third period when they scored a goal. The game was a close one until the fourth period when the Oilmen scored a goal to make it 5-1.

## DON'T BUY AN OLD-FASHIONED RADIO

"Seal-Shielded" is the season's sensation that has again revolutionized radio construction. The Rogers Full-Spray, Seal-Shielded, 7-point, Guaranteed Tubes are an exclusive Rogers-Majestic development that makes old-fashioned and obsolete the awkward, inefficient, tin can method of shielding.

7 TUBE (USED IN ALL THE NEW ROGERS AND MAJESTIC SETS) THAT REQUIRES SHIELDING IS A METAL-ENCLOSED TUBE. Sprayed right on and here the fragile tubes are covered by a metal film—making glass and metal one solid shielded monolith from the back to the front—more than 100 times as effective as tin can shielding. This great achievement affords seven points of superiority in radio reception as listed opposite.

It cannot afford to choose a set that will be old-fashioned in a decade, by choosing Rogers or Majestic. For eight years Rogers, the pioneer electric radio, has built and justified its Crendell reputation. Today, with exclusive "Seal-Shielded," with its proven features, new developments, it is still out in front—the most advanced radio of the year.

Rogers Full-Spray Seal-Shielded 7-Point Guaranteed Tubes at No Increase in Price Exclusive to Rogers and Majestic Radios

1. The new "New Deal" Rogers or Majestic Radio for its many features and Majestic Radio is all the major achievements of the past years—the amazing selectivity of the Superheterodyne, the uniform level of tone volume ensured by Automatic Volume Control; the pleasure of accounting back or treble as will by lightly touching the Tone Color Control; the thrill of extreme sensitivity that reaches to the most distant station; the limitless enjoyment of reception by Full Range Electro-Dynamic Speaker. Plus modern features in the new "Divan-Style" Tube (2 in 1)—and Art Moderne Cabinets.

## Chicago Hands Ottawa First Defeat of Season, Rangers Enter Win Column for First Time

Hawks Put up Air Tight Defense to Win 2-1

### MARROONS TIE

Ranger Front Line Score Both Goals For 2-1 Victory

Toronto Maple Leafs were the only undefeated team in the National Hockey League today as the team locked entered the second round of its 1938-39 season. Unable to break through Chicago's airtight defense, Ottawa lost 2-1 last night, leaving a two-game winning streak that matched the Leafs'. While referees were being elected for the opening game at New York on a 2-1 victory over the Detroit Red Wings and Montreal played a 2-2 tie in the local ice.

The Hawks' victory was regarded as a surprise, as they had lost to the Bruins in the first round of the season. ## WATER SHORTAGE IN NORTH ALLEVIATED

An acute water shortage which had threatened residents of the north end of the County in the district of Markham has been almost averted since the coming of Friday's snowfall and mixture of rain, report residents of that section. During the past few weeks nearly all in the district were dry, and streams and creeks also contained little water. The appearance of the cold snap has brought further handiness and good. Nearly all lakes in the section are now covered with a sheet of ice varying in thickness from two to four inches. Roads to the north county are passable, but the heavy snow on Friday is making travel slow and difficult in places.

## NO ACCIDENTS OF SERIOUS NATURE

In spite of the glazed condition of the roads, which has been the cause of many accidents, no serious accidents were reported. Traffic officers, J. J. 7312. # HEAVENS ARE TOO CLOUDY TO SEE LEONIDS

## BOYS DOASTER WAGONS

"Hello" came the voice of an old subscriber over the wire late Friday afternoon. "Is that the Daily Ontario Intelligence?"

"Yes that the Daily Ontario Intelligence?" "Can you tell me if we are able to see the Leonid meteor shower this evening, and has anyone reported seeing any of them during the last few days?"

"No a single official report as to whether or not they have been seen this evening to get a good look at them."

"Oh, dear, Now I suppose we have to wait another thirty-days, and then have a look at them."

"And that's that. Leonids might have flamed and blazed along their starry path high up in the stratosphere last few evenings, but the plovered sky was too dense to see anything but dark clouds."

"So you again in 1940!"

## LOCAL POLICE ARE PRAISED

## Miss Winnifred Kydd Speaks at Women's Canadian Club

**Delivers Eloquent Address on "Is There a Woman's Cause?"**

**LARGE ATTENDANCE**

**Splendid Attendance at Club's Annual Armistice Luncheon**

That women in public life should occupy good positions and have influence is the theme of Miss Winnifred Kydd's address on "Is There a Woman's Cause?"

Miss Kydd was introduced by the president of the club, Mrs. J. W. Hays, who said that the club was proud to have her here.

Miss Kydd, who is a well-known public figure, said that she believed in the equality of the sexes and that women should have the same rights and opportunities as men.

She said that she believed in the importance of education for women and that they should be encouraged to pursue their studies and careers.

Miss Kydd also spoke of the importance of women's suffrage and the need for women to have a voice in the government.

Her address was well received by the audience and she was applauded at the end of her speech.

The luncheon was also a success and the club members enjoyed the evening very much.

Miss Kydd will be visiting in the city for a few days and will be giving more lectures.

She is a well-known public figure and has been active in many social and political causes.

## HUNTERS' EXPERIENCES

Hunters in the autumn of 1933 have had experiences of the kind unequalled for many years. The bush has taken on a new aspect with intense cold and fairly heavy fall of snow. In New Ontario hunters are storm-bound in the northern woods and together the hunting season has given the impression of the good old-fashioned days, though to have long since departed.

Hunters have found conditions so favorable for many years that many of them, particularly the new ones, did not realize what the weather might bring forth. But a hunter primarily is out for a novel experience which only the hunt in an Ontario woods can bring and this year it has brought considerable hardship.

But the hunters enjoy "roughing it" as they have been called upon to do. The hardships in the hardship may phase them for a moment but it tests their mettle and they are proud of their novel experience to meet such emergencies.

1933 hunters may have stories to tell which will not be equalled for some time to come.

## NO CHANGE IN SPEED LIMIT

The question of motor speed on the highways of Ontario is a live one, but has not reached the stage of serious consideration. By a vote of thirteen to eleven in the executive of the Ontario Automobile Association, the Ontario Automobile Association, favor of the increase of speed maximum to forty-five miles an hour was rejected.

The vote was so nearly evenly divided the executive decided before making a recommendation to think of the matter for another year and report back in 1934.

Varied views are expressed in the press as to the advisability of increasing the limit. Some observers say automotive engineers are not ready to make the theoretical speed limit, the average automobiles have been built with engines of such power that they will do the work of ninety to one hundred miles an hour, and, working so smoothly these cars prompt the driver to increase the speed to the limit of the engine. Human weakness in taking advantage of such power makes them dangerous.

Hamilton Spectator, commenting upon the complaint that governments operate these high speeds should go to manufacturers and dictate the possible speed of cars, says that governments operate that anything of the kind will come to pass. If the government insisted that cars be geared to a maximum speed of twenty miles an hour that would not prevent fast cars from being used where twenty miles an hour is the legal pace. Granting, then, that motor manufacturers will be left to their own devices, and also that the man who buys a car capable of doing ninety miles an hour will not always be content to keep it throttled down to a mere 35, case made out for the increasing of speed limits.

The Spectator agrees with the Observer that the question of increasing the speed limit is a matter of individual responsibility. So great is the interest in highway speed that even the Gazette of Montreal has commented upon the possibility of change of speed limit. The Gazette has given a few observations on the limit of thirty-five miles an hour whether native or visitor.

"The limits have been established in some places but the results have not been satisfactory," comments the Gazette. "England there is a demand that the limit be restored because of the increase in the number of accidents under the new freedom. It has been found that motorists chafe under the 'safe driving' just as much as they do under the faster limit."

The Gazette notes that the "safe driving" is a matter of individual responsibility. The Gazette notes that the "safe driving" is a matter of individual responsibility. The Gazette notes that the "safe driving" is a matter of individual responsibility.

"Courtesy on the road is far from being general and until that desirable state is widely established, there will remain speed limits in the law to regulate the highways of a goodly number of patrol officers."

Present indications in the face of such divergence of opinion are that no change is likely in Ontario for some time at least.

**PATIENT STONES**  
How few of us look twice at any stone! We watch the flowers, the winding stream, the sky.  
And every proud pine standing alone  
Like a signal for the roving eye.  
A swift bird, flashing red through the trees,  
A chattering squirrel, climbing to her nest.  
With eager joy we feast our gaze on these  
And on the sunset banners in the west.

But for the patient stones by which we climb  
While we with birds and beasts and dingling stream,  
We have no thought except that they are strong.  
And so they are, more strong than life or time;  
They will endure through silent ages long,  
While we with birds and beasts and dingling stream,  
Pass by and are no more than vanished dream.

—Alice Michalich.

Union hunters have been hunting for some time before another open season on elk will be possible due to the wholesale extermination of burles, does, and fawns, many of which were not carried out of the mountains.

**UNLESS YOU CAN SPEAK** four languages in addition to passing the civil service examination there is practically no chance of your becoming a policeman in Waltham, Massachusetts. Mayor Patrick J. Duane rejected the names of three that had been sent in for being "too good for the job," and he is looking for appointment as a patrolman, because the three were from Germany, France and Italy. Due to the number of foreign born residents in this city, the linguistic ability would prove helpful.

**A POUND OF LOAF SUGAR** was worth two shillings in the market in 1730, at the same time a day's wages of two shillings were paid to a mackerel fisherman and a yard of calico sold for five shillings. A dress in those days was paying for a man—and he cherished. Read the ad of the Ladies' Ready to Wear merchants today and note the difference. Money is a little more plentiful, too, and wages higher. And still some folks talk of the good old times.

**YANKEE DOLLAR** which has been so popular these many months, is a shrill, violet these days, and Yankee tourists who have been telling about in France enjoying salubrious climate and cheap living suddenly find their expenses mounting by reason of the depreciation of dollar and the high cost of living in France. Yankee eagle is not looking down on the good Canadian dollar these days, rather it is looking up with respect as the Yankee dollar sags and the Canadian dollar climbs.

**HOW WOULD YOU LIKE** to pay \$170 a year's subscription to a daily newspaper? That's what is charged for the New York Times All Day Paper edition, delivered to your door every day, except Sunday edition only, on paper, a fifty dollars per year. Single copies of the daily edition are seventy-five cents; single copies of Sunday edition \$1.25. The original newspaper is printed on Canadian paper and is published daily. The life of paper can be counted in centuries, hence it is used for files. The paper edition of the New York Times is subscribed to for libraries, state, public, school and business houses, and by individuals who want to keep intact the record of history as it is being made.

**Blue eyes and dark hair, five feet four, and 112 pounds** is the composite "ideal" of the male students at University of Vermont, according to a survey of opinion conducted by the University of Vermont newspaper. Painted fingerprints were put by a majority vote, and the girl showed an "intelligently quiet," and use makeup in moderation.

**The gigantic Fort Peak dam**, to be built in northeastern Montana will bring back the "good old duck days," according to Charles W. Marra, Montana state game warden. The lake to be formed by the dam will be 175 miles long and will be nearly 20 miles wide. Although primarily a flood control and power project, the dam will create a potential paradise for hunters.

## SAYS DEFINITE CHALLENGE IS FACING YOUTH

Don Topplin is Candidate For Ontario Provincial Parliament

Madoc—A very definite and important challenge is facing the Ontario youth of today. The future of the country and of humanity lies within our hands. We must realize that the youth of today are the leaders of tomorrow. It is their duty to see to it that the youth of tomorrow are better than the youth of today.

# Picobac Tobacco NOW 10¢ HURRAY!

"Gentlemen—because so many of my fellow Canadians are smoking Picobac, it has become the largest selling bulky tobacco in Canada—and because of its great popularity you benefit. You can now buy Picobac for 10¢ and get still more tobacco for your money."

"I urge every pipe smoker to buy one of the handy pocket tins of Picobac and get acquainted with a tobacco that's friendly, more sociable in a pipe. As a matter of fact, you'll hardly recognize the old pipe, once it's loaded with Picobac, lighted and drawing well. Sweeten your old Mild? You can smoke it hour after hour and never get fed up. Cool? You'll draw a thousand miles and never find a mellow, cooler smoke."

Picobac is the pick of Canada's Burley crop, grown in sunny southern Ontario—always cool... mild and sweet in your pipe. Good for making cigarettes, too.

—and don't forget, you get more tobacco for your money.

Handy pocket tins now 10¢. 1/2 lb. tins Now Reduced from 75c. to 60c.

IT DOES TASTE GOOD IN A PIPE!

## NEW WEATHER THEORY

Weather runs in twenty-three year cycles according to the theory of Dr. Abbott, reporting to the National Academy of Sciences in Washington. This theory is based on the belief that electricity controls the weather all over the world, and that the weather is a definite twenty-three year cycle. Droughts, and heat spells to repeat with comparative variations for individual localities. This theory said that the weather comes from the sun. Spinning like a top, the sun's north and south poles are electrically charged the opposite to each other. These charges reverse from north to south, and the change taking twenty-three years. The charges come from the black swirling sunspots, according to the theory. The sunspots change from month to month, electrical impulses following suit, and regulating the changing weather.

Dr. Charles Abbott of the Smithsonian Institution is making an announcement that states that the day of long distance forecasts is now at hand with predictions for the next twenty years. He is not yet ready to make very definite weather predictions.

But then the meteorologists do not agree with the sunspot theory. They say that 1910 records do not agree with the sunspot theory, and therefore, and hence fail to confirm Dr. Abbott's theory.

## FREEDOM, NOT DICTATORSHIP

Stanley Baldwin the other day uttered some commonplace platitudes about the minds of Britainers. "I do not think there is any man who is good enough and who is good enough to be a dictator," he said. "I do not think there is any man who is good enough and who is good enough to be a dictator," he said. "I do not think there is any man who is good enough and who is good enough to be a dictator," he said.

The expression may seem hard for nations like Germany, Italy, Russia, Turkey and Japan. But the iron rule of the world is laid. Just how far the semi-dictatorship of the United States would be maintained as such a rule is difficult to say though even in such a democratic dictatorship there must be a dictator. The only dictator Britain has is the British Empire.

The advertiser commenting upon the situation in Europe with many dictatorial says, that countries under the iron rule of the British Empire are not free British countries. The advertiser goes further when it says: "And the people of these countries by submitting themselves to dictatorial confessions they are unfit for democracy based upon respect for minority action. Assuredly countries of this nature will grow out of their present system."

## THE COPPERS, WHERE ARE THEY?

Where go the pennies? has been a question propounded of late as the coppers or one cent pieces of renewed life and respectability.

There are so many places they can go, but lately money has been so scarce, it is known where they are most perplexing especially for the efficiency experts who ought to be able to find out if they are in the bank.

How many are lying in banks, how many in pockets, how many are lost—no one knows.

But the world knows this much that the copper or one cent piece is a piece of silver that it used to be. A cent means something once it was "scored." It is to be said that the copper of the Canadian nothing less valuable than a nickel was current.

It was to be hoped that the day never comes when people look with scorn upon the lowly brightly-shining copper. So the copper for the British Empire is not to be ashamed to admit that the copper is a good piece of silver.

He who is ashamed to accept a copper in change insists that for which the copper is a laborer in the mine of brass, and almost deserves to have the life of life and life torn against him.

While there are twenty million produced for Canadians every year and probably more than one lot. They serve good purposes.

A light and trifling mind never takes in great ideas, and never accomplishes any great good or good—Sprague.

One life must be thatched with another or it will soon rain through—Owen.

The hell that a life would keep a man from the Souths is the place for him to go—George Macdonald.

## CURRENT SPORT

It is understood that the one and only "Mutt" Madden, sports editor of the Toronto Globe, football has been named as the new head of the University of Toronto football team.

Naturally Coach Madden is anxious to have his charges in the very best of condition as they can down the speedy Toronto squad. He will be a guide to the team in the coming season.

Undoubtedly the largest crowd of fans ever to attend a "big game" at Belleville will be on hand when the Red Wings take place on Thursday. As football has never been so popular in Belleville as it is today, there will be many guests who will come to see the game.

Although we endeavored to assemble the officials for the referees' game which is, making reference to the identity of the referees and umpire had been named from the O.R.F., an early hour has named the referees. Each will be named by Secretary Bailey of the O.R.F. and will be named by the officials.

Barney Ross DEFENDS JUNIOR TITLE

Barney Ross, holder of both heavyweight and light-heavy titles, returning home from Chicago, during fight.

At the Saturday night meeting at the Madison Club it was announced that the team will be named by the officials.

The enthusiastic turnout at the evening meeting was an indication of the interest being taken in the game this year. All six courts were in constant use during the evening.

Invitations are being received from the Ontario Hockey Association and it was decided to accept the first one from the Port Hope Club for the 2nd. The 1st was taken last year.

At the Saturday night meeting at the Madison Club it was announced that the team will be named by the officials.

## City and District News

## NO PRODUCTION OF ACTING

The production of *Anticlimax* in the theatre of the Ontario Association of Actors, Ontario, has been postponed to the 26th of December. The reason for this is that the company is unable to produce the play at the time it was scheduled to be produced. The company is now in the United States and will be returning to Ontario in the near future.

## SOCIAL EVENING WITH CHOIR

A delightful social evening at the home of Mr. and Mrs. J. E. Morrow on Friday night, December 2nd, was given by the choir of the regular series of sessions of Holy Trinity Church choir last night. A variety of games were played by the guests, who enjoyed the evening very much. After a delicious lunch was served by the hostess, Mr. and Mrs. Morrow, the president of the choir presented to the choir a beautiful silver vase. The choir then sang several songs and the evening closed with the very pleasing singing.

## Entomologists From City Attend

The ranks of twenty-two women and insect experts from throughout the province were in session at the seventh annual meeting of the Entomological Society of Ontario, held at the Royal Ontario Museum for two days last week. The meeting was presided over by Mr. J. H. McNeill, president of the society. The program was most interesting and the speakers were of high caliber. The meeting was held at the Royal Ontario Museum, which was the first time it had been held there. The meeting was held on Friday and Saturday, December 2nd and 3rd.

## STOLEN CAR IS FOUND ABANDONED

A stolen car was found abandoned on Highway 10, near the corner of Highway 10 and Highway 10, on Friday morning. The car was a 1937 Ford, and was found with the engine running. The car was found by a local resident, who reported it to the police. The car was found in a field near the highway. The car was found with the engine running, and the driver's door was open. ## CHILD BEATEN AFTER SAYS NURSE EATING MEAL

Welfare Probe of Condition in Windsor C.A.S. is proceeding

Windsor, Ont., Nov. 23.—(C.P.)—A hearing of evidence in the Ontario board of welfare probe at conditions at the Windsor and Detroit Children's Aid Society shelter M. A. Sorensen, the Department's Deputy Commissioner.

At yesterday's hearing Miss Catherine McDonald, 25-year-old wife of a nurse at the institution, told the inquiry she had witnessed numerous instances in which children had been ill-treated, beaten, forcibly fed and subjected to severe punishment for the slightest of offences.

Miss McDonald charged the nurse, Miss Margaret Strickland, with having been guilty of many wrongs, including the fact that she had been seen eating a meal while the children were in the kitchen. She also charged that she had seen the nurse eat a meal while the children were in the kitchen.

She made no other charges. The children were taken away from the nurse and the nurse was taken away from the children.

The children were taken away from the nurse and the nurse was taken away from the children. The children were taken away from the nurse and the nurse was taken away from the children.

### Current Attractions at Local Theatres

What Local Theatre Managers Have to Say  
About Current Offerings

#### AT THE BELLE

"Orders is Orders," opening at the Belle Theatre (dramatic), for two days, is a hilarious comedy burlesque. On Hollywood, the director aided by his long-haired assistant, Charlie Greenwood, and with Cyril Maude composing an outstanding international line of comedy stars. "Orders is Orders" is a hearty frolic which delineates a goodly number of the most probable bounds of present-day film-making. The activities of a Hollywood production unit, a rigidly disciplined military barracks. The colonel of the regiment and the neurotic film director move in such different worlds that neither can appreciate the system in which the other works, but as the former, in the more vivid personality, the effect on military discipline is disastrous. The colonel, finding himself more and more deeply involved with the advent of the Brigadier, backed by the disciplined traditions of the British army brings the whole affair to an abrupt and hilarious ending. James Gleason as the director lets himself go in a most amusing manner and explains his position.

SOMEONE SEES MONEY IN THE RUNCIC ROCK.

Tread, where, in a fight against terrific odds, he leads the efforts of a group of desperate men and women to save the world. That wonderful white bear, which always appears in Jett's pictures has an exceptionally prominent part in "Runcic Rock." Beautiful Barbara Weeks is again the leading woman in his new picture.

#### AT THE CAPITOL

"Silk Express"

It's All About for "The Silk Express" at the Capitol Theatre, loaded with thrills, mystery and suspense. It has a Kate Fullman character of the train being made up of heavily guarded express cars with millions of dollars worth of raw silk and an all star cast of players headed by Neil Hamilton and Stella Terry. Others on board include Guy Kibbee, Arthur Byron, Dudley Digges, and Allen Smithey.

"The Silk Express" is one of the most colorful mystery stories ever screened. Apart from presenting a most intensely mysterious plot, the picture reveals the interesting facts connected with the handling of raw silk at Seattle upon its arrival from the Orient.

To tell like "The Silk Express" because it has all the elements of a mystery-thriller without any so-called horror atmosphere and it is just the kind of picture the kiddies will rave over.

In addition we have another episode of the popular Tarzan serial, which is quite exciting this week.

Moran and Mack the famous "Two Black Crowes" appear in a comedy that brings forth laugh after laugh.

A most interesting Peg News feed concludes the film offering.

On the stage a Negro and their presentation of carefully selected vaudeville. Chas Chase, international comedian whose many of you

have seen in the movies, appears in person in an act of pantomime that is absolutely funny. Betty Wheeler and Company in vaudeville's most thrilling act, demand your attention to a fast roller skating display. Nelson and Smith present a pleasing bit of entertainment entitled "For Laughing Purposes Only." And so!

By all means "take in" the Capitol for a fine class show worth enjoying.

RUNE STONE IS NOW  
IN NEWSPAPER OFFICE

Windsor, Nov. 10 (CP)—Royal Canadian Mounted Police officers are pursuing their search for the subjects to Malibu's hand home now stored in a local newspaper office. Boston has been the site of the discovery near Buvaia, 45 miles north of Windsor, where the recovered on the grounds at the present time. A mysterious telephone call to Windsor newspapers and the "Malibu" University of Malibu publication, disclosed where the gold stone had been deposited.

The stone, believed by some to have been left by Henry Norcross who perished during the Klondike in 1903 and labelled a message to him, is to be left in the newspaper office for the time being, the future fate is unknown although it has been suggested it be given to the museum here.

#### DEATHS THURSDAY

(By the Canadian Press)  
Pete—Francis Albert B. Minister of Labor in the Edward D. White cabinet, lawyer and author.

Miss E. Frances Thompson, wife of Brig.-Gen. P. A. McNeil.

Oliver—John R. Challinor, chief editor of the "Ottawa Citizen," Ottawa public works department.

McNeil—Mrs. Isabella Henry, wife of D. A. Henry, retired freight man of D. A. Henry, region, Canadian National Railway.

This Runic rock found on a farm near Windsor has not only become a stamp centre of interest for scientists, but has now become piece of local property which police are still searching for. Apparently some

enterprising person or persons conceived the idea that something the Norcross might have said on the stone, hard in 1903, or thereabouts, would be worth money—much money, maybe. At any rate, a truck was backed up into the yard, and the

top of the stone politely removed. The stone itself will not say any more in Water Witch's column. The stone, however, shows the date and the finder, Joe Magarovich. THERE is a close-up of the inscription if any.

## TILLIE THE TOILER

"There's a very small extra proposition," he said, "let me do it! I know you want to buy your mother something. I know just how you can give your mother a surprise."

Her face flamed. She put out a restraining hand.

"Please!" he said, chuckling. "I'm a friend, not because I hope that you and your expenses are going to be up to me for life. I've got to be a friend, because you're good too little. Take it, it for beer's sake, and don't ever think of it again."

And Keith's losing his job, you losing yours, both of you worried out of their wits.

"Why'd you tell her?" Norah reproached her brother.

"I didn't," he said. "The emerald in the good old way," Keith said. "And because I think I'll have to take up this! Gracielaine thing, I think it's a good idea. In six months; I got my trip, of course, I might be able to help from there. I can't say anything here."

"Well, I'll see some good news, darlings," Norah said, suddenly. Her face was very pale, but

He was apparently no officer. He went over to the captain, who asked him, "You think you're a pilot?"

"Yes," said Grider. "I intend to go as soon as I can." The captain looked at him, but the American then went back to his desk and wrote up a report on the new recruit.

While Grider was deep in sleep, the scout plane was written to the ground, where it underwent a careful inspection by the engineers of the 6-202. When he appeared, ready to take off, he carried a heavy rifle. "My recent experience," he said, "have taught me not to venture far into military unground. I expect to land, for somewhere out there those fellows are waiting and hoping for me. I shall not return until I have brought it to them." "Goodbye, old man," said Corporal and may just go with you.
